Dear Hiring Manager,

I am writing to express my interest in the Fullstack Developer Internship position at your company. I am currently a third-year student majoring in Information Technology at Đông Á University, and I am eager to apply my academic knowledge in a real-world, fast-paced environment.

I have a strong foundation in web development, with experience in HTML, CSS, and JavaScript. I've also worked with modern frameworks such as React, Node.js, Spring Boot, and databases like MySQL and MongoDB. Through my personal projects, I've developed both web and mobile applications, gaining hands-on experience in integrating APIs, building user interfaces, and solving practical problems.

These projects have not only helped me strengthen my technical skills, but also improved my problem-solving, teamwork, and time management abilities. I enjoy learning new technologies and adapting quickly to new challenges.

I'm excited about the opportunity to contribute to your team and to continue growing as a fullstack developer. I believe my enthusiasm for software development, combined with a strong willingness to learn, would make me a valuable addition to your company.

Thank you for considering my application. I would welcome the chance to further discuss how I can support your development team.

Sincerely,
Nhân
